

Problem

Not everyone has a partner in life, and everyone deserves someone.

With loneliness, and without a partner, depression may occur in some individuals, and we never want that to happen,

With social media, there is a huge opportunity so see others connect with others, and if you're lonely, it may have the possibility of saddening the people that already struggle from loneliness

Going back to the social media issue, if lonely people are seeing others have fun, it can cause a sense of jealousy which is not good

Audience

Virgin

Loners

College Students

People in Quarantine

Goals

Connection new people together

Finding new Relationships

Intimacy

Physical connection

Dating App

Solutions

Music

Friends

Significant Others

Family

Fitness

Design process

Idea gathering - brainstorm

Finding a medium(website, app, etc)

Implementation and alpha/beta testing

Testing with control crowd

Release

EMPHASIS ON REAL CONNECTIONS

How to use the app

Personality Test

Finding mutual interests and hobbies

Hangout

Premium Feature

Uses current location to find people nearby

Long distance optional
